

JUNIOR CONSULTANT/ANALYST

An entrepreneurial risk management advisory and software firm seeks a dynamic and highly energetic INTERN to work on pitches and business development and on projects involving, among other subjects, liquidity effects in securities markets, macroeconomic stress testing for financial firms, operational risk in asset managers and financial planning for central banks.

The internship will be full-time, paid and will have an initial duration of two months. There will be the possibility of an extension and/or subsequent permanent employment

Required characteristics:

1. Superior academic performance including a good first degree in Economics from a leading university.
2. Excellent drafting skills in English.
3. Very good skills in Powerpoint, Word and Excel.
4. Very good quantitative skills are essential.
5. A meticulous and accurate approach to work.
6. Experience with Matlab or similar programming language would be an advantage.
7. Knowledge of languages other than English would be a plus but is not required.
