

Java Developer

Job Title: Java Developer
Working For: Risk Control
Location: West End, London
Salary: Competitive, depending on experience

About

Risk Control Limited is an entrepreneurial risk software and consultancy firm working for leading financial institutions.

We are looking for a Java developer with good technological skills to work on internal and client risk management modelling projects.

We are a research-led company and the successful candidate may expect to acquire substantial new expertise.

This is an exciting opportunity for somebody wishing to develop a career in the financial software applications.

There will be opportunities to interact with clients.

Requirements

- You must have a superior educational track record
- You must have extensive experience of programming in Java
- Working knowledge of SQL and practical experience with relational databases
- Knowledge of JavaServer Pages, HTML, CSS and JavaScript advantageous
- You must be meticulous and precise in your work

Good interpersonal skills are desirable as there will be opportunities to interact with clients.

Interviews will be held on a rolling basis.

Closing date for applications: 3rd December 2015

Please send a cover letter outlining how you meet the specification along with your CV to admin@riskcontrollimited.com
