

# Java Developer

**Job Title:** Java Developer

**Working For:** Risk Control

**Location:** West End, London

**Salary:** £40,000 - £50,000 depending on experience

## About

Risk Control Limited is an entrepreneurial risk consultancy and financial technology company engaged with highly topical risk, regulatory and policy issues.

We work closely on demanding financial modelling tasks with leading banks, insurers and asset managers.

We are seeking an experienced Java (JEE) Developer with good interpersonal skills to participate in client-driven and internal financial modelling projects.

We are a research-led company and the successful candidate may expect to acquire substantial new expertise and to be exposed to innovative financial modelling techniques.

## Requirements

1. Excellent knowledge of Java and JEE web-applications, including JSP, HTML, CSS, JavaScript, and Spring MVC.
2. Minimum of 5 years of experience with Java and JEE web-technologies.
3. Thorough knowledge of SQL and JDBC essential, including the ability to design and normalise database schemas.
4. Knowledge of Ant, JUnit, Hibernate, Swing and Maven an important advantage.
5. Experience with designing and developing complex GUI workflow applications also an advantage.
6. Knowledge of different operating systems including Windows and Unix.
7. Right to work in the UK.

Good interpersonal skills desirable as there will be opportunities to interact with clients.

Interviews will be held on a rolling basis.

Start Date: Immediately

Closing date of the application: 30th September 2016

Please send a cover letter outlining how you meet the specification along with your CV to [admin@riskcontrollimited.com](mailto:admin@riskcontrollimited.com)
