

## Research Assistant

# Part-time Research Assistant

**Working For:** Risk Control

**Location:** Soho, London

**Salary:** £30,000 pro rata

### About

Risk Control is a specialist provider of technical risk management consulting and software. Risk Control works with major financial institutions such as banks, insurers and asset managers on high-level risk and policy issues.

We seek a meticulous and highly literate individual to assist with research work much of which will be at the weekend. The projects may involve, among other subjects, credit portfolio modelling, operational risk for asset managers and risk transfer operations. The role might suit an economics or finance PhD student.

### What you will do

The individual will work on research projects directed by a Risk Control Director, William Perraudin. Hours of work are flexible.

### Required characteristics:

- You must have or be working towards an MSc or PhD in statistics, economics, finance or a related discipline.
- You should have experience of dealing with economic and/or financial data.
- Experience of working in a financial institution or an interest in financial policy and regulation would be an advantage.
- You must be skilled in drafting clear and precise written English.
- You must be meticulous and precise in your work.
- You must have the right to work in the UK

Closing date for applications: 30<sup>th</sup> October 2017

Interviews will be held on a rolling basis.

Start date: Immediate

Please send a cover letter outlining how you meet the specification along with your CV to [admin@riskcontrollimited.com](mailto:admin@riskcontrollimited.com)
