

Research Assistant

Weekend Research Assistant

Working For: Risk Control

Location: Soho, London

Salary: £20 per hour

Risk Control Limited is an entrepreneurial risk consultancy working on topical regulatory, public policy and risk issues. Our analyses of financial risk and liquidity have shaped the thinking of regulators and industry participants.

Recent research projects include high-impact studies of the impact of regulatory rules for major banking associations and regulators, support for risk transfer transactions and implementation of risk management tools for large financial organisations.

We are looking for a meticulous and highly literate individual to assist with weekend research work. The role might suit a current statistics, economics or finance PhD student or a highly qualified MSc student.

What you will do

The individual will work one day per week directed by our Managing Director, William Perraudin, on a wide variety of research projects. Working hours will be mutually agreed to suit both parties.

Required characteristics:

1. You must be studying for an MSc or PhD in statistics, economics, finance or a related discipline.
2. You must be highly literate with well-developed research skills for the identification and analysis of relevant references and publications.
3. You must have experience of dealing with economic and/or financial datasets.
4. Experience of working in a financial institution or an interest in financial policy and regulation would be an advantage.
5. You must have strong statistical or econometric skills and experience of programming in a high-level language such as Python.
6. You must be meticulous and precise in your work.
7. You must have the right to work in the UK.

Interviews will be held on a rolling basis.

Start Date: depending on the availability of the candidate

Please send a cover letter explaining how you meet the profile (including the required characteristics listed above) along with your CV to jobs@riskcontrollimited.com
